HOMESTEAD RANCH REGIONAL PARK SITE: An original homestead site settled in 1874. Homestead Ranch Regional Park features diverse topography ranging from rolling, open meadows to tree-covered bluffs running the length of the park. A natural spring-fed pond and creek in the central valley of the park attract deer, coyotes, foxes, waterfowl, and occasional pronghorns. Rattlesnake Butte, a prominent landmark in eastern El Paso County from which visitors can see the Front Range and the Sangre de Cristo Mountains in the distance, is located within the park.
